Transportation Safety Institute

The Transportation Safety Institute (TSI) is a primary source of safety training and technical assistance. As an agency of the U.S. Department of Transportation, TSI provides highly qualified training and assistance to a variety of clientele ranging from private industry to all levels of local, state and federal agencies. Since its inception in 1963, the Institute has built a reputation of exceptional quality and dedicated service. TSI is a firm believer in excellence in training.

Aviation Safety Division

The Aviation Safety Division's training courses are conducted by highly professional instructors with many years of experience in their field. Training includes classroom lectures, workshops, field activities, individual studies, and hands-on training of accidents during classroom hours. The courses are designed to provide a better understanding of investigation management as well as field investigation techniques and procedures. The courses cover general aviation and air carrier procedures and a well-rounded education in all aspects of civil and public aviation accident investigation.
