SUPPLEMENTARY INFORMATION:

Background

The final rule that includes the subject correction changed miscellaneous gas pipeline safety regulations to provide clarity, eliminate unnecessary or overly burdensome requirements, and foster economic growth. As set out in the final rule under the heading Executive Order 12866 and DOT Regulatory Policies and Procedures, the miscellaneous changes resulted in an annual savings, without associated costs or adverse effects on safety.

Need for Correction

The final rule in amendatory instruction 36. mistakenly did not include the former C.6. as the new D.8. The effect of this inadvertency is the omission of the "ASME Boiler and Pressure Vessel Code, Section IX * * *."

Correction of Publication

Accordingly, the publication on June 6, 1996, of the final rule (Docket PS-124), which was the subject of FR Doc. 96-13787, is corrected as follows:

Appendix A to Part 192--[Corrected]

On page 28786, in the second column, lines 12 and 13, of the amendatory instruction 36. are corrected to read "through D.6. as subsections D.5. through D.8., respectively, and by adding new".

Issued in Washington, DC, August 1, 1996.

Richard B. Felder,
Associate Administrator for Pipeline Safety.
